

**Membership Mirrored Theme Groups (Third Sector Organisations, Agencies and Community Groups)**

Please indicate which of the current Community Planning Partnership Theme Groups links best with your service delivery / activities.

**Community Planning Partnership Theme Group - Economic Development Partnership**  The main purpose of this high level Community Planning Theme Group is to work with partners to develop the local economy of South Ayrshire. The Partnership has responsibility for delivering the Prosperous, Learning and Achieving related outcomes of the South Ayrshire Single Outcome Agreement. These include objectives related to supporting business development and growth, promoting learning and employability, developing tourism and the social economy and improving transport links and infrastructure. The Partnership currently has three sub groups which progress much of the operational work needed to deliver outcomes related services. They are: **Lifelong Learning Partnership:** responsible for community based learning and literacies services, **Workforce Plus Group:** responsible for employment and training services, **Local Social Economy Partnership:** responsible for developing and supporting social enterprises.

**Community Planning Partnership Theme Group - The Community Safety Partnership**  South Ayrshire Community Safety Partnership is working in partnership with communities and agencies to make South Ayrshire a Safer, Healthier more Confident place. The Community Safety Partnership is a theme group of South Ayrshire Community Planning Partnership. In addition the Partnership involves a range of voluntary and community organisations and members from specific communities in Joint Action Groups (JAGs).

**Community Planning Partnership Theme Group - The Sustainability Partnership**  To encourage a wide range of interested parties to participate in maintaining (and where possible, enhancing) a high quality environment in South Ayrshire based on the principles of the achievement of economic and social improvement without compromising future generations' expectations of: Access to resources, Protection of the environment, Health and welfare. The Forum meets on a regular basis to actively develop and deliver a set of objectives and engage on how to deliver the environmental themes of South Ayrshire Council's Community Plan.

**Community Planning Partnership Theme Group - The Community Health Partnership**  The Local Delivery Plan is NHS Ayrshire and Arran's contract with Scottish Government for service delivery against agreed targets and trajectories (the HEAT targets and measures). It outlines all of the activity and measures being taken in order to deliver agreed performance over a number of areas. Lead responsibility for the coordination and production of the LDP lies with the Assistant Director of Planning, with clear links to performance in relation to the delivery of HEAT targets. This accountability for delivery of the LDP also allows us to ensure it reflects partnership activity through community planning arrangements. Please Note as the Community Health Partnership objectives, targets, etc separates adult and children's services, the Third Sector (TS) Theme Groups will reflect this separation. (ie There will be a TS Community Health Group (Children) and a TS Community Health Group (Adults).

**Community Planning Partnership Theme Group - The Alcohol and Drug Partnership (ADP)**

The ADP has responsibility for one of the SOA Local Outcomes ie People are protected from the harmful effects of alcohol and drugs. This outcome directly relates to the following two objectives: The provision of appropriate interventions for people that are experiencing alcohol and drug issues in order to promote recovery, Reduce the number of people misusing drugs
